● Default user name (administrator): admin

● Default password: 123456

![Caution triangle icon] Caution

For your data safety, change the device password in time.

Chapter 2 Installation

2.1 Install Shoulder Clip

Install the shoulder clip if you want to wear the device on your shoulder.

Step 1 Insert the shoulder clip down into the slot on the front panel of the device.

Figure 2-1 Install Shoulder Clip

Step 2 Check if the clip is inserted into the slot firmly.

Step 3 Optional: To uninstall the shoulder clip, press the buckles on both sides of the clip inwards with your fingers, and slide the clip upwards to uninstall it.

2.2 Install SIM Card

If you want to connect to the network via SIM card, install a SIM card on the device.

Before You Start

Please prepare a SIM card by yourself.

⚠️**Caution**

Be sure to use a standard Nano-SIM card. Otherwise, the SIM card or the device may be damaged.

Step 1 Shut down the device.

Step 2 Slide the fastener on the rear panel of the device to the left.

Step 3 Open the back cover by pulling the protruding handles.

Step 4 Take the battery out by pulling the battery handle.

Step 5 Insert the SIM card into the card slot with the metal side facing downward until it is installed firmly.

Figure 2-2 Install SIM Card

Step 6 Install the battery and back cover.

Step 7 Slide the fastener to the right to lock the back cover.

2.3 Charge Device

When the device power is low, charge it in time.

Step 1 Open the USB interface plug on the side of the device.

Step 2 Connect the device to the power adapter with the supplied USB data cable.

2.4 Change Battery

Change the device battery if the battery is damaged, which needs to be performed by professional personnel.

Before You Start

Please prepare a dedicated battery (optional).

[i]**Note**

Blue labels are attached to the surface of the dedicated batteries.

Step 1 Slide the fastener on the rear panel of the device to the left.

Figure 2-3 Slide Fastener

**Step 2** Open the back cover by pulling the protruding handles.

Figure 2-4 Open Back Cover

Step 3 Take the battery out by pulling the battery handle.

Step 4 Change a battery.

Step 5 Insert the tabs on the top of the back cover into the grooves of the back case, and then press the cover downward until it snaps.
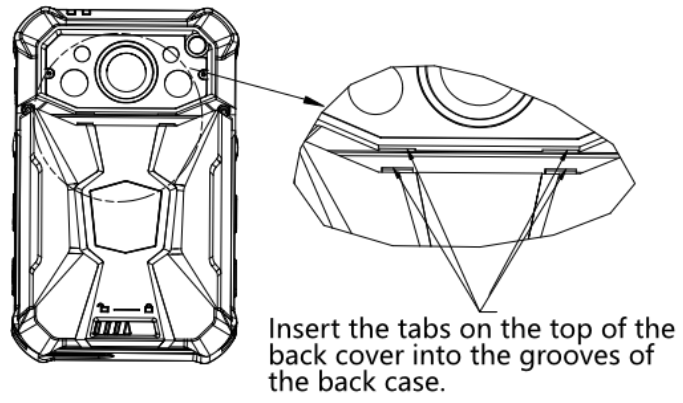

Insert the tabs on the top of the back cover into the grooves of the back case.

Figure 2-5 Install Back Cover

Step 6 Slide the fastener to the right to lock the back cover.

Chapter 3 Basic Operation

3.1 Storage

The recorded videos, taped audios, and captured pictures will be stored in the device.

3.1.1 Record

You can record videos via the device.

Step 1 After the device starts up, press the recording button.

After the recording starts, the recording icon and recorded time will appear on the upper left corner of the live view page.

⌊ⁱ⌋**Note**

The recording button varies with different devices. The actual device prevails.

Step 2 Press the recording button again to stop recording.

Step 3 Optional: Select **File MGT** on the main menu to view the recorded videos.

⌊ⁱ⌋**Note**

● If you want to record a period of time before recording starts, select **Settings → Media → Video → Pre-record** to set pre-record.
● If you want to record a period of time after recording ends, select **Settings → Media → Video → Pre-record** to set post-record.

3.1.2 Tape

You can tape audios via the device.

Step 1 After the device starts up, press the taping button.

After the taping starts, the white taping icon will appear on the upper left corner of the live view page.

Step 2 Press the taping button again to stop taping.

Step 3 Optional: Select **File MGT** on the main menu to view the taped audios.

3.1.3 Capture

You can capture pictures via the device.

Step 1 After the device starts up, press the capture button.

The device captures a picture.

Step 2 Optional: Select **File MGT** on the main menu to view the captured pictures.

3.2 Playback

You can play back videos, audios, and pictures via the device.

Step 1 Select **File MGT** on the main menu.

Step 2 Select **Video**, **Picture**, or **Audio**.

Step 3 Select the file to play or view from the file list.
