PRODUCT DESCRIPTION

LONG:

With next-level optics, a large area SONY® sensor and high-speed circuitry, Facecam Pro captures ultra-detailed 4K60 video like no other webcam. Powerful software equips you to dial in the perfect shot with ease, and onboard camera memory keeps you looking sharp every time you go live. A field view of up to 90-degrees lets you capture your surroundings or entire team, while manual and autofocus modes put you in complete control of your image. You can even pan, tilt, crop and zoom while maintaining excellent image quality. Make no mistake – Facecam Pro is a massive leap in webcam technology.

MEDIUM:

Next-level optics and a large area SONY® sensor for ultra-detailed 4K60 video. Powerful software to dial in your perfect shot with ease. Manual or autofocus, cinematic effects, and more. Plus onboard camera memory that keeps you looking sharp every time you go live. Make no mistake – Facecam Pro is a massive leap in webcam technology.

SHORT:

With next-level optics that capture true 4K60 video, and powerful software to dial in your look with ease, Facecam Pro is a massive leap in webcam technology.
