

DOCK430EUZ

USB-C™ Multi-Function DisplayPort™ Alt. Mode Triple Video Docking Station with 85W Power

- Supports single 4K, dual 2K, or triple HD video via two DisplayPort™ 1.4 and one HDMI 2.0 monitor ports
- 5, 9, 12, 15, 20 V DC Power Delivery up to 85 W
- 1x USB-C™ 3.2 Gen2 port (10 Gbps)
- 1x USB 3.2 Gen1 Type-A fast-charging port
- 3x USB 3.2 Gen1 Type-A ports
- Gigabit Ethernet port
- 3.5mm combo Audio In/Out port for mics, speakers, and earphones
- Integrated lock slot accommodates standard security locks to safeguard equipment
- Compatible with Targus VESA Mounting Bracket (ACX003GLZ, sold separately)

Supports Two DisplayPort™ and One HDMI Monitor

Access the latest display technology with two DisplayPort™ and HDMI ports that creates a rich, high-definition viewing experience. The USB-C™ DisplayPort™ Alt. Mode Docking Station with 85 W Power supports full UHD (3840x2160 60p) resolution in single display and resolutions of up to 2560x1440 60p in dual video mode – and even 1920x1080 60p with three monitors.

Enhanced Power Delivery

The USB-C™ DisplayPort™ Alt. Mode Docking Station provides up to 85 W of USB Type-C Power Delivery at all popular voltages including 5, 9, 12, 15, and 20 V DC. DOCK430 will negotiate a Type-C Power Delivery contract with multiple platforms including PC, MacBook, Chromebook, and even popular Android phones.

Onboard USB 3.0 for Advanced Peripherals and Charging

Multiple onboard USB ports make it easy to customize workspaces with the latest keyboards, external drives, and other essential peripherals. Efficient charging is close at hand with one powered USB 3.2 Gen1 port for keeping smartphone, tablet, or other devices powered up and ready to go.

Enterprise Software Suite: A Targus Exclusive

Enhance security and improve user experience with the Targus Enterprise Software Suite for DOCK430EUZ.

- **Wi-Fi Auto Switch:** auto enables/disables Wi-Fi functionality when the dock's Ethernet connection is active, reducing unnecessary network traffic and enabling faster connection speeds.
- **MAC Address Cloning:** auto replaces the MAC address of the connected Targus Ethernet network adapter with any (Wired Ethernet, Wireless Ethernet, Bluetooth) MAC address of the local host, supporting device-based authentication methods.
- **Ghost Device Removal:** purges older, latent Targus docking station devices from the local registry preventing registry bloat.
- **Targus A/V Configuration Utility:** restores audio configuration, icon, and first-level application window's positions to external monitors when re-connecting to a previously used Targus docking station.
