Le Screen[®]

BY MULTIBRACKETS

AT Le Screen we get the Big Picture. We know TVs are great, but if you want to make a really epic presentation or watch entertainment the way it was supposed to, you need a projection screen. One hundred plus inches of highdefinition awesomeness. The way to present and the way to watch is way more important than most people think. As they say - there is just one time to make a first impression, and we want that to be a great one, whether it is a company presentation or watching the game with your friends. Our series of projection screens are built to deliver and adds flexibility and real quality to your set up. Designed in Stockholm, Sweden to provide outstanding performance with a sleek and streamlined outlook, it gives your visitors the impression you want to leave behind. With one of the largest selections available our screen solutions are ideal for public, office and home use.

Projector Ceiling Mounts	44 - 49

Mission

Le Screen's mission is to make High-end Quality Projection Screens available to every budget without compromising the product quality.

MANUAL PROJECTION SCREENS DELUXE

MANUAL PROJECTION SCREENS DELUXE

ELEGANT DESIGN & SUPERIOR MATERIAL CHOICES

Le Screen Manual Self-Lock Projection Screen Deluxe are elegant projection screens designed with a aluminum cassette, high-end for the living room, home theatre, conference rooms or for educational use in schools. With a sleek Nordic design this projection screen fits any environment it is installed in.

The Le Screen Projection Screens are easy to install and even easier to use. Just sit back and enjoy the show! Non compromised material choices is used when making a Le Screen Manual Screen giving you market leading technical specifications and optimized picture quality.

Slow retention

A slow retention function is built into the manual screens. This makes the screen retract slowly and controlled retract into the cassette. This prolong the lifetime (normally doubles the life expectancy) of the projection screen and makes the manual screen usable in more public environments where multiple users handle the screen every day.

Superior screen material

The quality of screen material is the most important aspect of any projection screen. Most screens on the market will use a very basic compressed cloth type material resulting in a creased surface and poor contrast performance. The Le Screen Projection Screen Deluxe series use a high quality multi ply material with a high contrast and low gain of 1.0. The material is tear resistant, fireproof, anti wrinkle

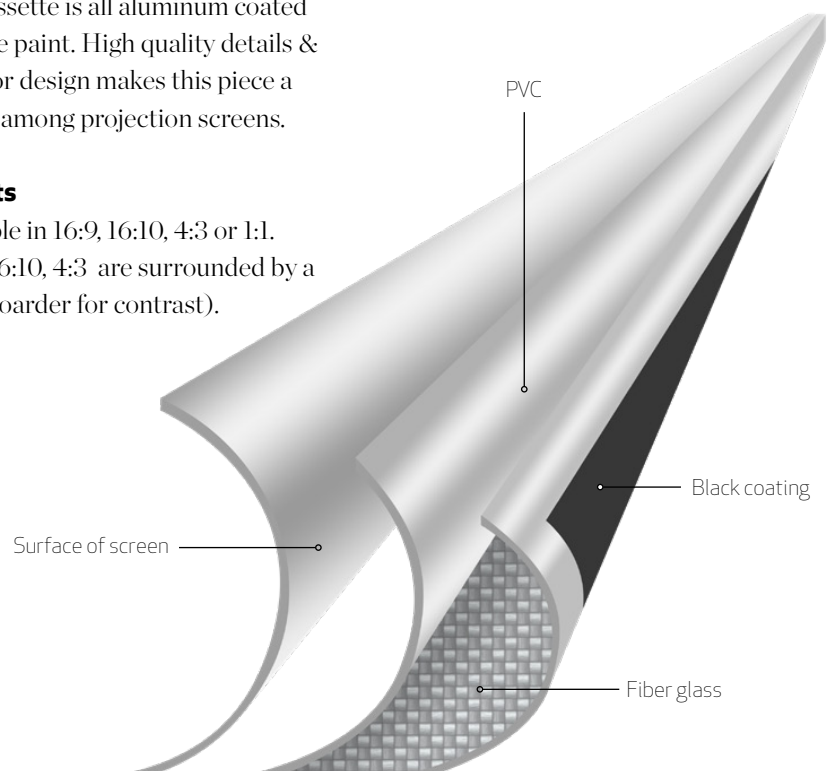

safe and is designed to hang flat. The centre layer is a glass fibre net producing a flex rate of less than 1% compared with the industry average of 33%. The front layer optimizes contrast and reflectivity while a black PVC backing prevents light leakage and helps retain a uniformly flat projection surface.

Elegant design

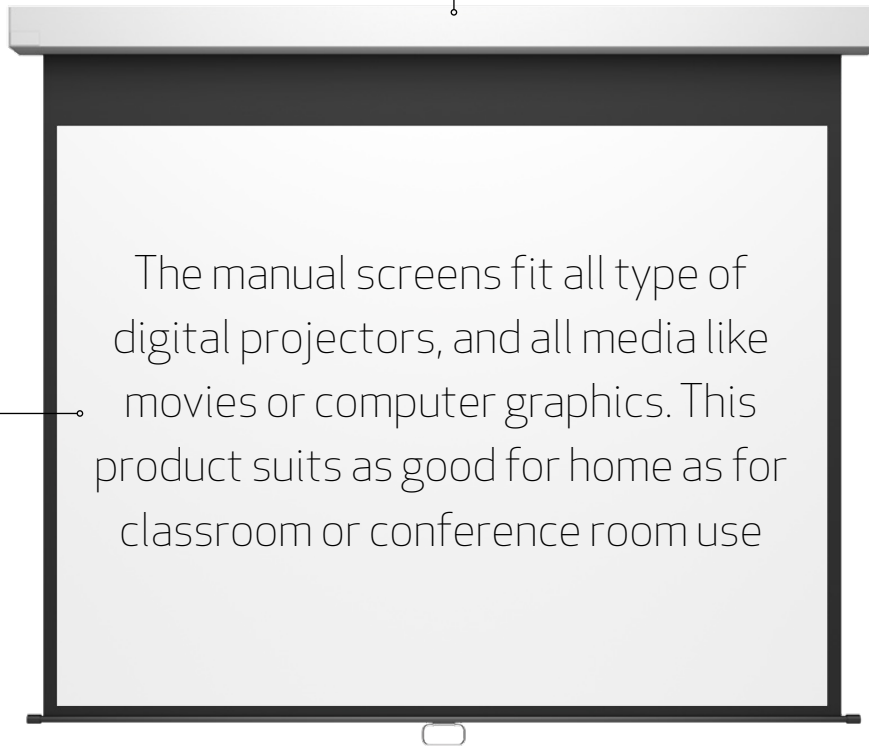

Le Screen Manual Self-Lock Projection Screens Deluxe are an elegant series of manual screens. The cassette is all aluminum coated in white paint. High quality details & superior design makes this piece a beauty among projection screens.

Formats

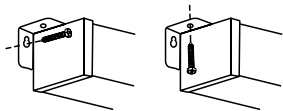

Available in 16:9, 16:10, 4:3 or 1:1. (16:9, 16:10, 4:3 are surrounded by a black boarder for contrast).

High Quality Aluminum Case
lightweight yet durable

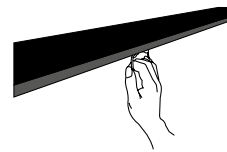

Cleanable Screen Material
for easy maintenance

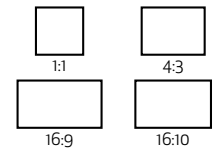

Wall/Ceiling mounting
For multiple placement options

Slow Retention Design
For smooth screen retraction

Durable Handle
Easily pulls down the screen

Multiple Aspect Ratios

MANUAL PROJECTION SCREENS:

- Available with aspect ratios: 16:9, 16:10, 4:3 and 1:1
- High quality aluminum cassette
- Slow retention & high quality details for longer life
- Market leading screen fabric gain 1.0
- Mounts for ceiling or wall installations included
- 30 centimeter black drop

MOTORIZED PROJECTION SCREENS DELUXE

ELEGANT DESIGN & SUPERIOR MATERIAL CHOICES

Our motorized projection screens are designed to increase functionality and performance for today's presentation environments. Also by being motorized and not handled by hand it will last much longer than its manual counterparts. Crafted to strict Le Screen standards, these innovative screens are now available in widths from 77" to a massive 334" (or 8,5m diagonal).

Le Screen Motorized Screens also feature seamless height adjustments for a picture perfect reproduction in the most challenging environments. Le Screen standard fabric is a Gain 1.0 and our screen cloth is using a high levelled three layer technology. Le Screen can also custom produce screens with different fabrics built to a project's specification. Supporting most popular aspect ratios: 16:9, 16:10, 4:3, and 1:1 we are almost certain we have a Motorized Projection Screen that fits your needs.

Operates from long distances

Cleanable screen material
for easy maintenance

Superior screen material

The quality of screen material is the most important aspect of any projection screen. Most screens on the market will use a very basic compressed cloth type material resulting in a creased surface and poor contrast performance. The Le Screen Motorized Projection Screen Deluxe series use a high quality multi layered ply material with a high contrast and low gain of 1.0. The material is tear resistant, fireproof, anti wrinkle safe and is designed to hang flat. The centre layer is a glass fibre net producing a flex rate of less than 1% compared with the industry average of 33%. The front layer optimizes contrast and reflectivity while a black PVC backing prevents light leakage and helps retain a uniformly flat projection surface.

Multiple Aspect Ratios

Quiet Tubular Motor

CE-Quality Mark

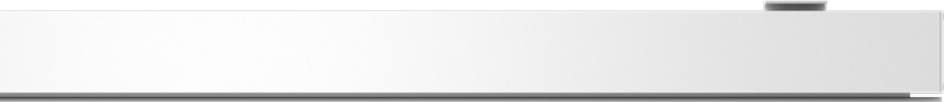

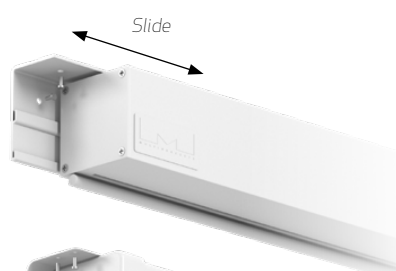

High Quality Aluminum Case
Lightweight yet durable

HIGHLIGHTS:

- Available with aspect ratios:16:9, 16:10, 4:3 and 1:1
- Adjustments possibilities are easy to reach inside the case
- Pre programmed final setting for rolling in and out of projection screen makes rapid installation possible
- All Motorized projection screens follows the product safety standards with CE-quality mark
- The motor with 28RPM is incredibly quiet
- Supplied with mounting details for ceiling and wall installation
- Matte white, double-sided laminated vinyl with black back, and fiber glass centre (three layered technology) gain 1.0, viewing angle over 50 degrees left and right,weight approximately 450g/m² and thickness approximately 0.45mm.
- Le Screen Motorized Projection Screens Deluxe support formats 16:9, 16:10, 4:3, and 1:1
- Black border of 4cm around the viewing area (16:9, 16:10 and 4:3)
- Black/white drop 30cm
- Case colors available in white and black
- Sliding wall mounts ensure the installation is properly centered.

le Screen[®]

BY MULTIBRACKETS

**FRAMED PROJECTION
SCREENS**

FRAMED PROJECTION SCREENS

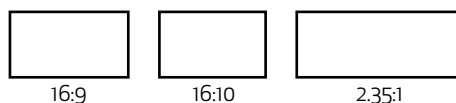

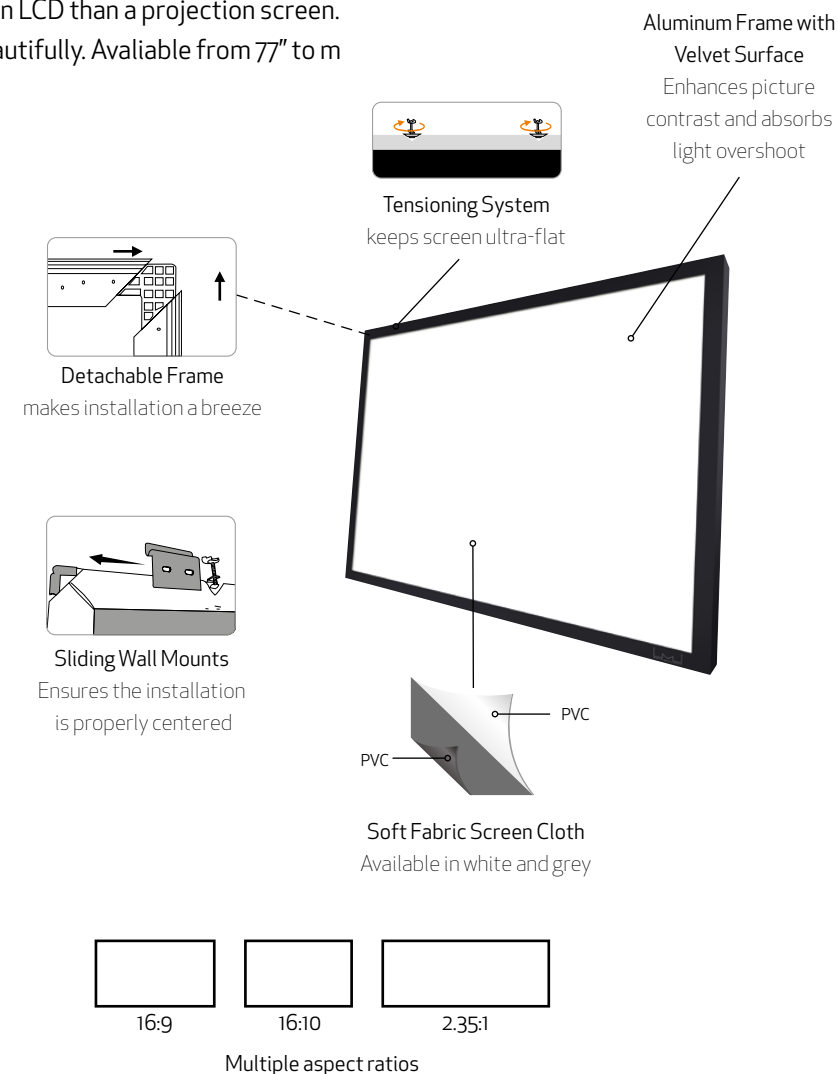

ELEGANT DESIGN & SUPERIOR MATERIAL CHOICES

Our ultra flat framed screens reach a perfectly smooth surface. With a frame that is just 30 mm thick, it looks rather like an LCD than a projection screen. It's simple and linear shape harmonizes beautifully. Available from 77" to massive 226".

Our Framed series is a best seller in EU perfect for Boardrooms, Corporate Information Suites, Reception areas and other prestige business locations. Our line of framed screens are also perfect for smaller viewing theatres, visitor centers, museums and other select presentation venues. The screens are based on a high quality screen cloth. Producing a 1.0 gain with a superior extra wide viewing angle.

Our Framed screens use a simply ingenious tensioning system, you're sure to get a wrinklefree and super straight image every time. Le Screen framed screen value means big audiences get big screens without having to compromise on the experience. The result is a viewing environment that delivers on movie makers creative vision. A result so immersive it must be experienced.

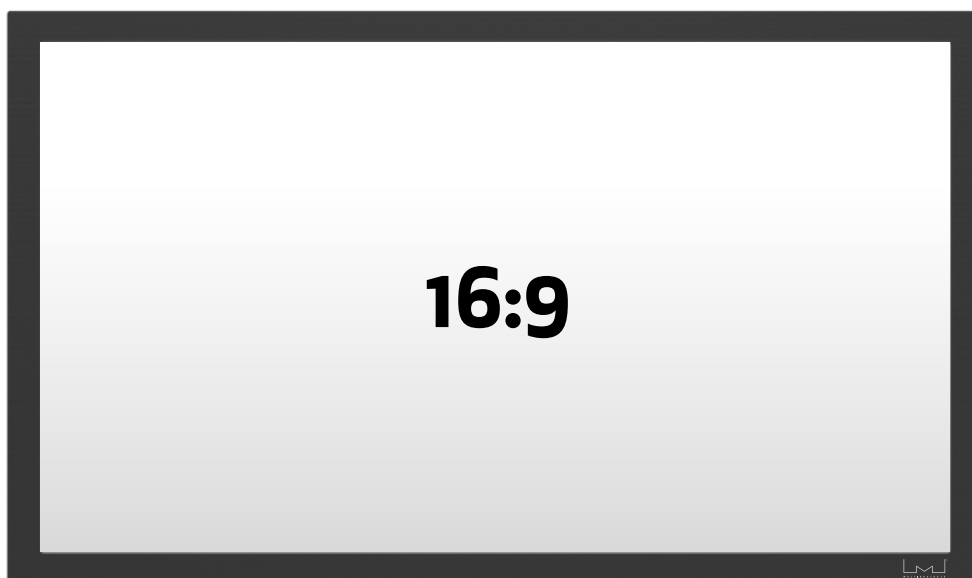

Our series Fixed projection screens are tailored to fit the bill for high-end fixed screens and viewers wanting high quality and good economy. Selected framed screens has the option to use Le Screen Grey Plus Cloth (Gain 0.9) or our Acoustically transparent screen technology.

Multiple aspect ratios

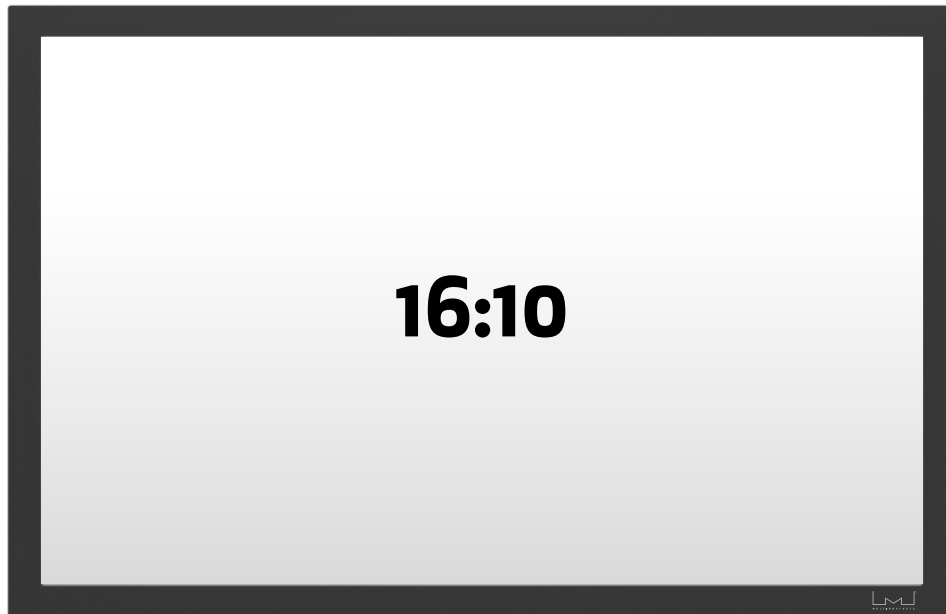

FRAMED PROJECTION SCREENS

- Multiple aspect ratios available: 16:9, 16:10 and 2.35:1
- Highly versatile 1.0 flat-tensioned screen material with standard black backing to eliminate light penetration.
- Aluminum contour frame surfaced with black velvet to enhance picture contrast and absorb light overshoot.
- Slide-on wall mount is horizontally adjustable for easy centering.
- Designed for high performance Home Cinema Projectors.

M GREY PLUS EXTRA CLOTH

GET THE BEST PICTURE QUALITY FOR THEIR FIXED FRAME SOLUTION

This projection screen surface is optimized for any user striving to get the best picture quality for their fixed frame solution. Overall the M Grey Plus generally provides higher contrast and better colour rendition than a standardized matte white projection screen surface.

The grey screen surface is the perfect choice when video images are the main source of information being projected and where ambient lighting is moderately controlled. With its specially designed grey base surface and a reflective top surface, this screen material is able to provide very good black levels without sacrificing the white level output. With its enhanced black levels and brilliant white levels, this screen surface provides deep life-like colours and greater detail and sharpness to the image.

M Grey Plus projection screen surface ensures a dramatic improvement of contrast display for any projector.

M Grey Plus is available in all fixed framed screens sizes, and is purchased separately.

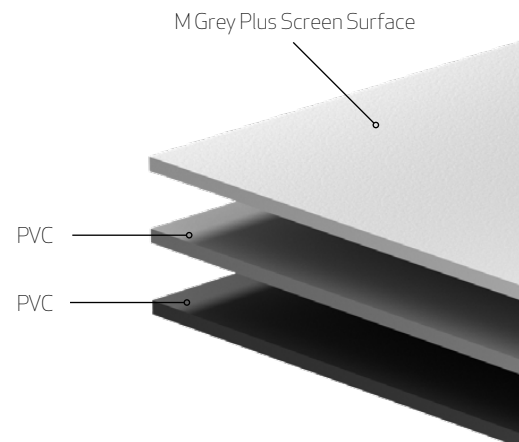

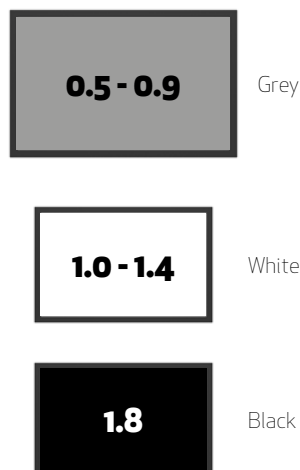

GAIN: SCREEN REFLECTIVITY

The image luminance is the overall image brightness created by the combination of projector output and screen reflectivity. Projection screens vary in their reflective properties. The reflective neutral matte white screen is typically 1.0 gain but can vary as high as 1.4 in its reflectivity. Negative gain projection screens are designed to enhance

contrast levels at the expense of having less reflectivity. They are typically measured between 0.5 to 0.9 gain. Ambient Light Rejecting or ALR projection screens typically perform in the realm positive gain, or anything higher than 1.0 to 1.8 gain. These screens are known for superior brightness and image saturation, however they can also be negative gain as heavy contrast layers are incorporated to enhance darkness levels for superior image quality.

0.9 GAIN

Negative gain projection screens are designed to enhance contrast levels at the expense of having less reflectivity.

- Multi-layer PVC (Polyvinyl chloride) with texture and surface coating
- Surface can be cleaned with mild soap and water
- Exceptional picture quality

Mission

Le Screen's mission is to make High-end Quality Projection Screens available to every budget without compromising the product quality.

**PORTABLE PROJECTION
SCREENS**

M PORTABLE PROJECTION SCREEN EXTREMELY LIGHTWEIGHT AND PORTABLE

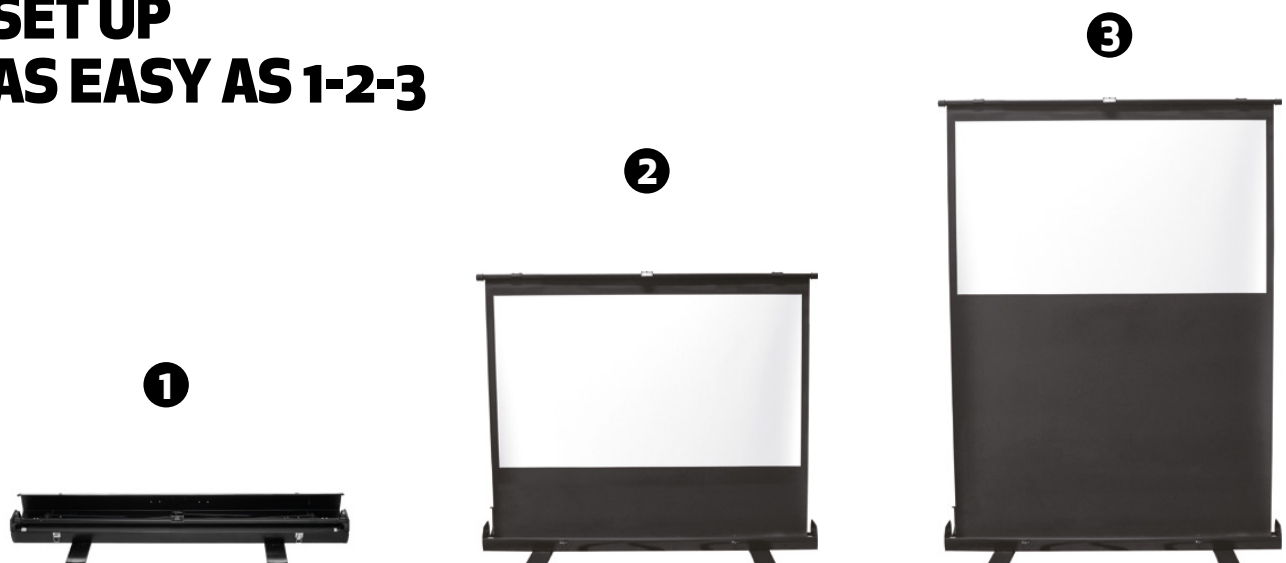

SUITABLE FOR PROFESSIONAL USE FOR PEOPLE ON THE GO

Our portable projection screens are designed to be easy to bring along. The screen unfolds with a scissor like structure, making it easy to use in cramped up places. These screens are easy to use, lightweight and truly portable. Perfect if you are on the go.

PORTABLE PROJECTION SCREENS

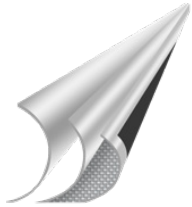

- The flexible tensioning arms makes it possible for the screen to unfold with precision and quality
- The MPortable Projection screen has two rotatable feet ensuring stability
- An extra strong case makes the unit handle travelling with ease
- Available with aspect ratios 16:9, 16:10, 4:3 and 1:1
- Available from 54" to 100"

CHOOSE THE RIGHT MOUNT FOR YOUR PROJECTOR:

PROJECTOR CEILING MOUNTS

PROJECTOR CEILING MOUNTS

INDUSTRY-LEADING PROJECTOR MOUNTS WITH FINE TUNE TECHNOLOGY FOR CEILING INSTALLATIONS.

Le Screen Projector Ceiling Mount series 200/ 500-800/ 600-1000/ 900-1600/ 1600-3000 with Fine tune offers an industry-leading projector mount for ceiling installations. The series minimizes installation time, simplify maintenance and offers a sought after fine tune adjustment alignment with 3-axle angles. This model also offers an anti-theft security feature.

The M Universal Projector Ceiling Mount 200 with Fine tune give you easy placement of your projector in the most discreet setting possible. You can orient and incline according to several axes. The model features integrated cable management, easy fine tune settings adjustments, once the projector is in place. This projector mount has a minimum of surface area to the projector good for not trapping heat close to your projector thus not cutting your projector lamps lifetime.

The built in fine tune technology provides easy fingertip positioning capabilities which automatically adjusts the projectors position. That way you can always be sure to get a well balanced position for your projector after installing it. This does not only save installation time but also make room for possible changes of what projector is being used or how your projection screen is positioned, perfect if you anticipate changing projectors in the future. The arms holding the projector are articulated and telescopic to adopt to almost all projector models.

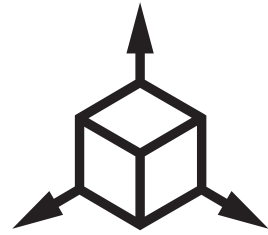

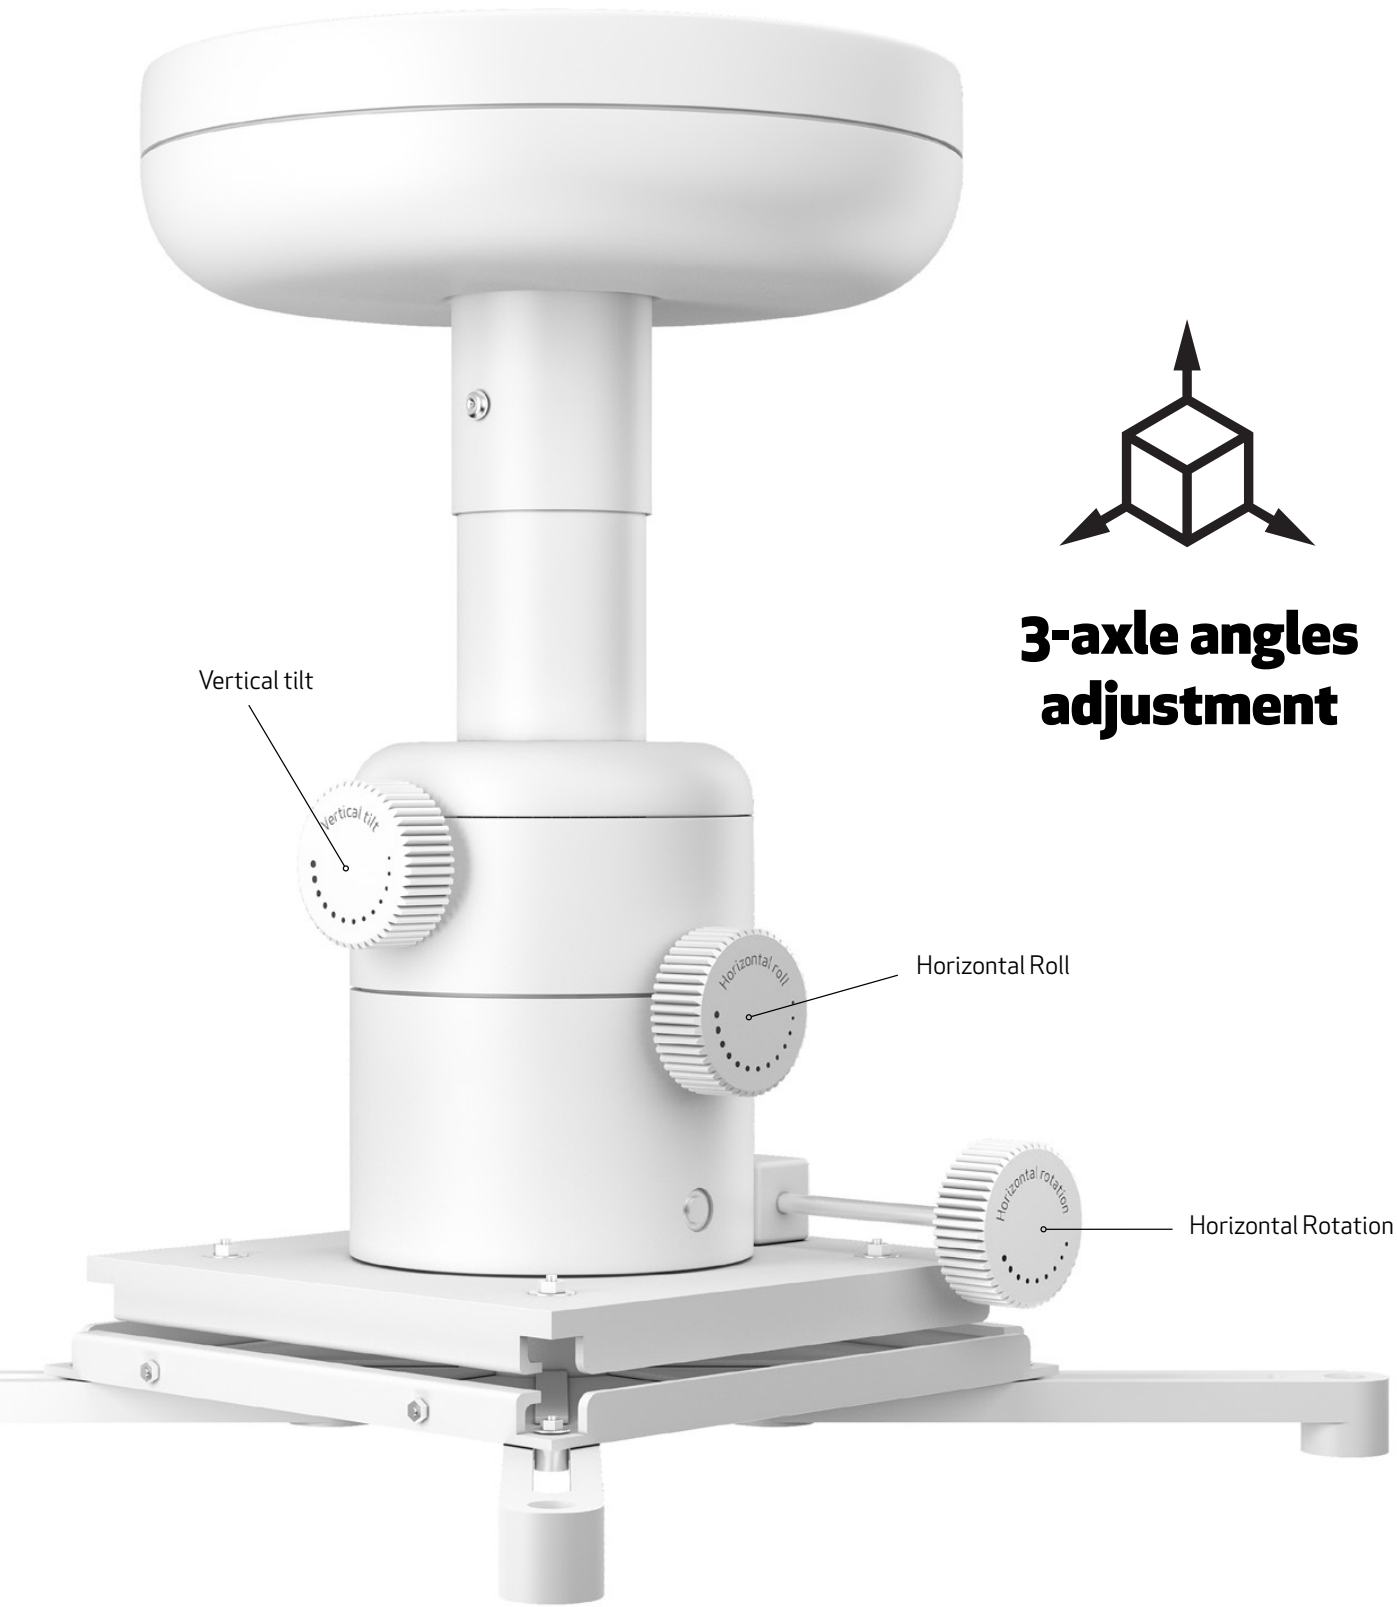

Le Screen Projector Ceiling Mount series 200/ 500-800/ 600-1000/ 900-1600/ 1600-3000 with Fine tune offers an industry-leading projector mount for ceiling installations. The series minimizes installation time, simplify maintenance and offers a sought after fine tune adjustment alignment with 3-axle angles. This model also offers an anti-theft security feature.

There is a reason why this series of projector mounts quickly has become one of Le Screen top selling product lines.

HIGHLIGHTS:

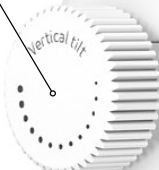

- Fast installation with innovative design
- Ideal for those who wish to use it with more than one brand projectors, or who anticipate changing projectors in the future
- Projector position from the ceiling
- Integrated lateral shift
- Telescopic slide extension
- Fine tune adjustment alignment with 3-axle angle
- Integrated cable management system for concealing cables
- Product: Includes arm and projector mount (complete)
- Ceiling: Includes hardware for a complete installation for nearly any ceiling
- For faster installation the unit comes partially pre assembled

"Everything starts with you.

For us to create great products it always begins with putting you the user at the heart of everything we do."

Mission

We are on a mission to create products that are simple to install and use, that excites and solves our clients daily needs - everyday, all year around. Based in Stockholm, Sweden we design, develop and market AV Equipment. But we do it our way. Armed with a genuine passion for new technology and user centric innovation, we take a product and give it a little bit of Multibrackets magic!

About us

Founded in year 2000 we are a family owned business and represented in over 30 countries. Today we are considered one of the leaders in the rapidly changing environment of digital signage technology – together with our distributors we are providing hardware and services to enable the full value from idea to a ready product. With one of the most comprehensive product lines in EU we supply Audio Visual Equipment for every need. Multibrackets reputation for innovative products is well known.

Become a partner

Stay ahead of your competition – Let us help you become a partner. Simply send us an email on support@multibrackets.com or go to our webpage <https://products.multibrackets.com/en/contact> for a contact with us at Multibrackets and we will help you with a distributor's contact. We look forward to your email.

Sustainability

At Multibrackets we see sustainability like a journey. Being in the AV business means we have a responsibility to take care of the environment and everybody who plays a part in making our products. We are working hard to design sustainable products, minimize our impact on the environment, improve our sourcing and create a great workplace for our employees. Find out more about what we are doing and what we've already achieved on our web.
