The Avigilon Video Archive is a scalable storage expansion solution that is fully integrated with Avigilon Control Center™ software and Network Video Recorders. This cost-effective technology offers an Avigilon-backed solution that helps deliver a complete, end-to-end video security platform. The Avigilon Video Archive is built on hardware technology that delivers superior reliability with no single point of failure and near zero downtime, ensuring video archives are preserved for swift on-demand retrieval and review.

## Key Benefits

- **Pay as you grow** - Scalable from 336TB to 2PB (RAW) per Network Video Recorder with enterprise NL-SAS drives to cost-effectively grow in lock-step with your organization
- **Fully integrated with ACC and Site Health** - Simplifies management of multiple Petabytes of data and provides system health status in ACC™ dashboards
- **Maximize uptime** - Mission critical design with fully redundant architecture that eliminates any single point of failure
- **Prevent data loss** - Minimize risk of data loss and non-compliance via erasure coding's fast rebuild capability, vastly outperforming RAID alternatives
- **Avigilon-backed Support** - Up to 5 years of onsite support (Next business day) with optional "keep-your-drive" warranty that ensures no drive ever leaves your premises
