

INSTALLATION INSTRUCTIONS

LCDCP Ceiling Plate

The Chief LCDCP Ceiling Plate is designed to support Chief RPA and LCDA series mounts.

WARNING: Improper installation can result in serious personal injury! Make sure that the ceiling structural members can support a redundant weight factor *five times* the total weight of the equipment. If the ceiling can not support this weight, reinforce the ceiling before installing the hanger assembly

Maximum 75 pounds.

Unpack and check contents:

Ceiling Plate (1)
Allen Wrench (1)

5/16-18 Set Screws (1)

Installation Instructions

1. Make sure the 1½" pipe nipple is pointing down.
2. Using threaded fasteners through the six 7/16" diameter clearance holes, mount ceiling plate to appropriate structural ceiling.
3. Thread the 1½" pipe section into the 1½" pipe nipple ceiling plate.
4. Make sure 1½" pipe section is tightly secured into the 1½" pipe nipple.
