

# eco/smart™

## Sustainability without Compromise

Step into a world where your choices shape a brighter future. Join HYPHER on a sustainable journey that blends cutting-edge technology with materials that are better for the environment. HyperDrive Next represents an advancement in technology that seamlessly blends sustainability with high-speed connectivity through EcoSmart™ products that are made from recycled materials and designed to reduce our impact on the environment.

**Go Beyond connectivity, Go Beyond sustainability, break down barriers with EcoSmart™ materials.**

### Eco-Friendly Packaging

All of HYPHER's packaging is made from 100% recyclable materials with no plastics.

#### FSC Certified

Ensures that all of our packaging is a mixture of materials from FSC-certified forests, recycled materials, and/or FSC-controlled wood.

#### Made with Soy Ink

All of the ink used on our packaging is a soy-based ink that is a renewable resource made from soybeans.
